

# Polynite

## The solution for the heavy traffic

When you have heavy traffic and want to make Polynite less shifting on the floor.

1) Make ① and ② Sheet touching on the each side of the wall.

① and ② can be overlapped if the hallway has less than 64”

2) Connect ③、④、⑤ sheets and treat 5 sheets as One Unit.

3) Try not to connect each Unit. (to avoid wave motions)
